The Legacy of War

Canada's Dead and Missing 63.038 Canada's Wounded. 149,709 Canada's National Debt. . . \$1,670,263,691 Soldiers' Annual Pensions. \$35,000,000

THE world to-day is staggering with debt. Some of the leading countries are verging on bankruptcy. The British pound shrunk from \$4.86 to as low as \$4.12; in New York and the Canadian dollar to 95 cents.

Five years ago Canada had never dreamed of the financial burden she carries to-day.

Canada entered the Great war with a national debt of \$337,000,000 or \$42 per head of population. Canada emerges with a national debt to date of \$1,670, 263,691, which is expected to approximate \$2,000,000,000 by the end of the fiscal year—or about \$250 for every man, woman and child in the country.

Interest charges alone will eat up nearly one-half our present national revenue and soldiers' pensions will have to be provided as well.

Can Ontario Afford \$36,000,000 a Year on Drink?

O Canada's effort Ontario contributed one-third of the men and nearly one-half the money. And she bear a chief share of Canada's burden of annual charges. If efficiency was necessary to win the war, it is necessary to reconstruct for peace.

"I say without hesitation," declared Premier Hearst, "that I do not know of one act or measure in this province that increased the efficiency of our people, conserved our national strength, aided thrift and generally contrib-uted to our fighting power to a greater extent than the Ontario Temperance Act."

Previous to the Ontario Temperance Act the driak bill of the province approximated \$36,000,000 per year, an amount about equal to Ontario is share of the annual interest on our national debt. In the face of our financial responsibilities alone is this the time to repeal the Outario Temperance Act or relax a single one of its restrictions upon waste of money and man power? To every question on the Referendum Ballot vote-

No Repeal; No Government Beer Shops; No Intoxicating Beers in Standard Hotel Bars; No Government Beer and Whiskey Shops

THE Referendum will put four questions squarely up to every man and woman in the province qualified to vote. Be sure you answer every question. Be sure you mark your ballot with an X after each question under the column headed "NO" or your vote will be lost to Temperance.

CITIZENS' LIBERTY LEAGUE

ITS AIM AND ITS OBJECT

The Citizens' Liberty League is an organization of representative men and women throughout Ontario, who through necessity have banded themselves together to oppose all legislation (Dominion or Provincial) which tends to curtail the liberties and lawful rights of the citizen.

In view of the imminence of the Ontario Referendum the activities of the League will for the present be chiefly directed to

SANE LIQUOR LEGISLATION

The Ontario Temperance Act, adopted by the Government as a war measure—without the vote of the people—is legislation that does curtail personal liberty and one which has bred great dissatisfaction.

The Citizens' Liberty League is absolutely opposed to a return of the open bar as it previously existed in Ontario under the old License Act. The League believes that The Ontario Temperance Act should be repealed and so enable the Government to enact a law in accord with thé sentiment of the people, permitting the general sale of nonintoxicating beer and light wines and the sale of pure spirituous liquors only through Government agencies under proper restrictions.

Now that a Referendum is about to be taken, the members of the League feel that every citizen should clearly understand the meaning and significance of the questions asked in the Referendum Ballot.

In order to accomplish this purpose the Citizens' Liberty League will discuss all phases of this great issue in the public press in the interests of sane, moderate temperance legisla-

Concerning Your Fall Shoes

F you would secure service and satisfaction from your shoes this Fall, it is more than ever important that you should go to a reputable dealer in whom you have confidence, and see that the maker's trademark is on the shoes you buy. This for the reason that leather is now scarcer than at any time during the war, prices are higher, and some grades of leather are to-day almost unobtainable at any price.

Millions of pairs of shoes, millions of feet of leather, have been bought for the Nations of Europe whose stocks of footwear were entirely wiped out by the war. This has more than offset the reduction in demand for army shoes. And coming upon a supply of material which was already scarce, it has resulted in a situation which, for the time being, is serious.

I Therefore, unless you have first-hand technical knowledge of shoes and leather, you must rely more closely than ever this Fall upon the reputation of the maker and of the retailer.

The retailer who has a reputation to sustain will not endanger it for the sake of a little extra profit. And no established manufacturer will stamp his trade mark upon goods which do not represent good value at a fair price.

The chances are that you do not feel any great interest in the leather market, or in the conditions which govern the manufacture, and distribution of shoes. Butyou ARE interested—vitally interested—in securing for yourself and your family reliable footwear at fair prices. And the value which you receive for your hard-earned dollars is inexorably determined by those same conditions which govern what we call the shoe trade. You cannot control them, any more than we can. But you CAN control your method of buying, so as to get the greatest possible value for every dollar you spend.

C . So we think it only just and proper to tell you, at the commencement of each season, what the conditions really are, so that you may base your buying judgment upon them.

To Buy Wisely This Fall:

FIRST: Go to a reliable dealer whose reputation you know and whose judgment you can trust: and

SECOND: Make sure that the trade mark of a manufacturer whose standing is known is stamped upon the shoes you buy.

Our booklet, "How to Buy Shoes," is gladly sent without charge to any address in Canada. Please address inquiries to our head office at Montreal.

HAT is Dr. Webster's definition. Many of us know the word only in its war-time application.

Webster dwells firstly upon the usage of the word "morale" as applied to the common place happenings of every-day life. His allusion to its reference to an army comes later. And Webster is correct—meticulously so.

It was their private-life morale that made such It was their private-me morate that made such splendid soldiers of our boys when the time came for them to don the khaki. It was that, and that alone, that made them take the first step, and it was that which adult, that made-tien take the first step, and it was that which carried them through to victory. If their every-day morale had been neglected, the Army could have done little with them and success would not have crowned their efforts.

It is the many little incidents of your daily routine that It is the many fittle incucents of your daily rounter that make up your morale—the morning shave, your clean linen, polished shoes, brushed clothes. Webster speaks of zeal, spirit, hope and confidence. It is by attention to the small details of your personal appearance that these may be attained.

The Gillette Safety Razor enters as much into the morale of every-day life as it did into that of the trenches. It helped our soldiers to maintain their confidence and bearing. It will do the same for you. The Gillette Safety Razor makes the daily above come leasy—there is no pulling or scraping—no homing, or stropping—just five thinties of perfect shaving comfort. Add, afterwards, a chin that tells of morale and suff-respect.

Sold at most stores catering to men's needs.

POLITICAL PLAIFORMS USEFUL TO GET IN ON.
The Hon. W. S. Fielding is not impressed very favorably with the new platform of the Dominion Liberal party which was adopted at the recent convention. A very large committee, be says in his necessage, the Journal of Commerce, had to deal "with little deliberation" with many resolutions as the in a deep convention had "but rest some of the resolutions in the same way." & small committee, Mr. Fielding thinks, would have given them "fuller condicatation."

"Many of the delegates, it is safe to say; learned for the first time through the newspapers of resolutions which had been adopted by the convention as part of the party platform. The resolutions may be all right. In some cases they may be regarded with less satisfaction when they conce under analysis and criticism," the former Liberal Minister of Finance says;

The time has come when the people of this Province must band themselves together in order to obtain a sane solution to the Temperance problem.

Representative men and women who feel that their liberties are being unreasonably encroached upon have associated themselves in what is known as the Citizens' Liberty League.

The League is not a radical organization promoted and dominated by selfish interests; but an organization of broad-minded thinking people, who, having the best interests of this Province at heart, believe that the unsatisfactory Temperance Act should be repealed.

The League is opposed to a return of the open bar as it previously existed in Ontario under the old License Act. It simply asks that non-incincating beer and wine be sold generally and that pure spirituous limuros be obspirituous liquors be ob-tainable at Government

agencies under proper restrictions.

These prominent citizens appeal to you to join the Citizens' Liberty League and assist in the effort to obtain sane, moderate temperance legislation.

WHAT'S THE MATTER WITH REILLY?

The Chicago Tribune says it is high time that they lost all patience as decaye Reilly. Who is Reilly, and how did he achieve fame? By Jardy was a Camadian soldier. Upon being soldied for funds with the to bein the cause of freedom, he said: "Sure, and fread is free as dimeries. You can get a drink in Ireland." Continuing in this vein the contraction of the contraction of

"What?" exclaims the Chicago paper. "America mind her or ess? Who ever heard of such a thing? Give Reilly twenty years LONGER HOURS FOR LABOR.

The U. F. O. candidate in East Wellington would reduce the cost of hing by lengthening the working bours in cities to correspond with those on the farm.

His argument is that if workmen in shages and factories would take from 4x to 16 bours at day they would greisly increase their individual productions and so be able to release many lands for eisplayment of Highd "This; contends the U. F. O. candidate, would simulate the pro-duction of 160 commodities, and or robote the cost of living.

An effort has been made to consolidate the Labor and U. F. O. movements. It will not be furthered by the proposal that put forerast in East Wellington. The shortened work day is the result of two generations of might pendawor by "Organisal Labor. The unions will starcely forfeit this hard-won prize, even to benefit the farmers. The chief effect of the East Wellington suggestion is to emphasize the utter iscompatibility of Trade Unionism and the U.F.O.—Toronto Times.

MOST POPULAR STORY-TELLER.

Who is England's most widely read novelist? It is not Wells, or meets, or Marie Corelli, although first thoughts may jump to one of the conclusions. By common consent of British papers it is Mr. Nat ald, who died a few weeks ago at the age of sixty-one. The London

ABOUT 170 years ago tea sold in England for \$14.60 a pound. It was a luxury which only the wealthy could afford.

Thanks largely to the great increase in the area of teat plants under cultivation in India during the past fifty years, there is enough tea grown to-day to supply tea to the world at a price even the poorest can afford.

A cup of "good" tea—Red Rose Tea—costs only a fraction of a cent. There is hardly anything sold in the grocery store that gives more value or more pleasure for the money.

Consisting chiefly of ASSAM teas—the richest and strongest of Indian teas—Red Rose is exceedingly fragrant, flavory and economical. It is a tea of real quality and real value.

Sold only in sealed packages.

CHAPTER XLI

231,130 Miles; Repairs but \$76; another amazing record for Maxwell Trucks

BELLEVILLE, ONT.

FERE are the third returns on the nation-wide inquiry to determine the reliability of Maxwell trucks. Group No. 1 showed 16 trucks, \$380.59 for repairs, for 90,010 miles.

Group No. 2 showed 15 trucks, \$313.07 for repairs, for 109,700 miles.

The group just examined follows !

Total Actual Repair	Total Actual Repair Mileage Cost
15,500 : \$2.50 /	18.000 : 2 : \$.00
13,950	27,900 25.00
14,880	20,000
21,700	15,500 10.00
15,500	24,800 25.00
27 900 3 00	15 500 10 00

This is at the rate of \$7 per Maxwell truck against an average mileage of almost 20,000. This is, so far as we know, the most remarkable figure ever recorded on a motor truck, regardless of price.

"Paralleling this repair cost record is the obvious and well-known gas, tird and oil mileage conomy of the Maxwell truck—so accepted in the trade and by the public that it no longer is a subject of comment.

Like a horse, a truck/must be sound to be useful. A truck often seeking 'the aid of mechanics is like a sick horse. Maxwell, as these repair Is like a sick norse. Iviaxwell, as these repairing figures show, is a well nigh perfect piece of machinery. And when you consider the cost—chassis price \$1715 f.o.b. Windsor—you can be the cost of easily figure what a great money earner it is.

REFERENDUM BALLOT

What Each Question Means—and Why You Should Vote on All Four Questions

Vote "YES"

Are you in favor of the re-peal of The Ontario Temper-ance Act?

The repeal of The Ontario Tem-perance Act does not mean a return to the general sale of spirituous liquors, as the Premier, in his speech of April 7th, said: "Now, practically no one suggests a return to old conditions. The distillers in a recent conditions. The distillers in a recent manifesto say that they themselves are opposed to ike—Many hotel-ace opposed to ike—Many hotel-keepers say they are opposed to it. Honourable gentlemen in the say they appeared to the present Act, who are the say they appeared to led order. The lat you opposed to the old order. The lat you have a de-termined to the say they appeared to for stronger them, say they appeared to for stronger them.

for stronger beer, say they don't want the sale of hard liquor." The Premier and the Government, realizing this, would not be parties to a continuance of the general sale The premier and the Government, realizing this, would not be parties of aplits as under the genul sale of aplits as under the genul sale of applits as under the genul sale of th

home consumption.

The Citizens Liberty League does not want a return to the conditions under the old License Act and the sale of liquor over the bar. It does ask, however, for the general sale of beer a.51% alcohol-by weight (non-intoxicating) and light wines, and that the Government should only

c'low the sale of heavier beers and liquors through agencies established and maintained under Government and maintained under Government supervision and control. It is there-fore necessary that question one chould be answered "Yes," repeal-ing The Cutario, Temperance Acia and making it possible for the Cov-criment to enact a new temperance recasure in accord with the express-ed will of the people.

THE PROPERTY OF THE PARTY OF TH

ed will of the people. By voting "Yes" on question num ber one you will be in agreement with Premier Hearst when he said: "Many good and conscientious citizens, as good and conscientious an zens, as good and conscientions act there are in the Province, do not approve of the Act as it stands to-day." Vote "Yes" on question number one and repeal the unsatis-factory Ontario Temperance Act.

Vote "YES"

2. Are you in favor of the sale of light beer containing not more than 2.51/1.0% alcohol weight measure through Government agencies, and amendants to The Ontario Temperance Act to permit such sale?

Vote "Yes" on question number two. This provides for the sale of light beer in Government stores for lome consumption and removes the necessity of procuring a doctor's certificate.

Remember - Every voter must vote on every question, or his ballot will be spoiled.

Study the Referendam Ballet; If there is any point not clear, call ar write the Scoretary of the League at Committee Hasquiartens. It is to your in-terest that you vets wisely and intelligently. And if you are a lever of liberty and an advento of true temperance, you will you "IES" on all questions on the Referendam Ballot.

3. Are you in favor of the sale of light beer containing not more than 2.51/100% alcohol weight measure in standard hotels in local municipalities that by majority vote favor such sale, and amendments to The Ontario Temperance Act to permit such sale?

Vote "Yes" on question number three. There can be little doubt Vote "Yes" on question number Circe. There can be little doubt that the majority of people will vote "Yes" on this question. There is a Cemand-for a beer of good flavor enal body that is non-intoxicating, and the public want to obtain it by the glass as well as by the bottle.

glass as well as by the bottle.

A beer of a 2,57% alcohol by weight,
no matter in what quantities consumed, is absolutely non-intoxicating. In European countries beer of
this strength is sold generally without license and without excise duty.
In voting "Yes" on questions two
and three you can be assured that no
one can become intoxicated by beer
of this strength.

Vote "YES"

4. Are you in favor of the sale of spirituous and malt liquors through Government agencies and amendments to The Ontario Temperance Act to permit such sale?

mit such sahe:

Vote "Yes" on question number four, which provides for the sale of all liquors for home consumption from Government stores under such regulations as the Government may deem it wise to adopt. The public will be able to purchase from these services without procuring a doctor's certificate.

The Oltizons' Liberty League Is not in favor of the sale of spirits over the bar as under the old License Law, It is, however, in favor of the general sale of non-interiorating beer of 2.51% alcohol by weight and light for home consumption through General man descriptions and the sale of liquer for home one samption through General man deep under such contracts and the distribution of the description of the d

Statistics show that when egg albumen is used as a constituent of baking powder, the amount so used is too small (usually 15/100 of 1%) to affect the quality or effectiveness of the baking powder containing it, and when so used, is plainly for the purpose of fraud. Intelligent buyers will not permit themselves to be deceived by the water glass test.

Actual Experience Shows Value of Ontario Temperance Act

NTARIO'S experience with prohibition under the Ontario Temperance Act since September 16, 1916, has been all the argument any fair-minded man or woman wants, to prove that the Act should neither be repealed nor weakened by Amend ments.

Total Jail Commitments for crimes and offences of all kinds have decreased more than one-third 1 since 1915.

Single Indicate of the second from 6,235 in 1915, the year preceding the Act, to 2,595 in 1918. It is believed the present year will. show an equal, if not great-

From Annual Reports of Impector of Primers 1916-1918, and Report of the Pourd of Licenta Commissioners for Onderio for the Year 1916.

All. Commitments for drunkenness decreased by 3,640 in 1918 compared to 1915. And yet, unlike former laws, this Act J compared to 1.915. And yet, unlike former laws, this Act makes dunkenness in public places a "prima facie" offence, punishable by fine or imprisonment, whether accompanied by "disorderliness" or not. And further the Ontario Temperance Act is more strictly enforced than was the Ontario License Act, and arrests for drunkenness are therefore

The number of commitments for drunkenness in Ontario in 1918 was the lowest in seventeen years, although the population of the Province in-creased during the same period by nearly 550,000, or over 27 per cent.

proportionately greater in comparison.

Some jails, including those of Brace-bridge, Cayuga. Napance and Orange-ville—received no drunkards in 1918 at all. Others show well nigh unbeliev-able decreases since 1915, notably in the cities and larger towns.

Drunkenness has decreased inder the Ontario Temperanes Act to the point where a drunken man on the street has become a rare sight.

Crime in general has decreased as shown by record of jail commitments.

Do you want to see the taste for alcoholic beverages revived, and the population of Ontario's prisons, jails and lock-ups restored?

You are asked to vote on four questions. Two of these questions refer to beer of 2.51% alcohol by weight, equal to 5.46% proof spirits, more than double the strength at present permitted by the Ontario Temperance Act. Do not writtle the strength of the str mistake the meaning of these questions.

The beer of the ballot is intoxicating. If you are convinced that drunkenness is undesirable in this province mark X under the heading "No" after each question—"No" to the Repeal, "No" to each of the suggested Amendments.

"No!"-four times-"No!

T should be expressly noted that each and every one of the four questions on the ballot paper in this Referendium must be answered or your ballot is counted "spoiled." Be sure 'you mark your ballot with an X after each question under the heading. "No." or your vote will be lost to Temperacre.

It is anticurous that the price of cigars, cigarettes and pipe tobacco is to be jacked up again by the Golere. The last offence was engineed when the war states word in the contrast of the contrast of

prices for their lawvife, number.

It is bad enough to have our drinks prescribed as to quantity adquality, but when high prices on the one hand threaten in our down our chance rations and well-meaning but deluded references on the other threaten to desprive as entirely of our smokes as well as our inspirational mointure, the outlooks it dark and smoky.

No wonder the world is full of revolution and unrest when the restriction of the method are under such constant fire and substituted to the method are under such constant fire and substituted to the method are under such constant fire and substitute that the price and the substitute of the substitute o

and usey have arrived at a land lowing with milk and honey, rounded by near-beer and cheap to lookeco?. If our reforming friends keep on reforming there is a possibility of the et day this world will be moulded and shaped into such a pink of per-ion that on one with any real sap in their veins will care to stay here. If you turn the cuffs you can (wear the shirt a day or two longer before send-ing it to the laundry.

But if you turn an ordinary culf it bulges and looks unsightly. You wouldn't be seen with it.

The new "Double Wear Cuff" is dif-ferent. It folds just as neat and flat when turned in as when turned out. Your friends cannot tell which side is turned out.

One trip to the laundry is harder on a shirt than two days' wear. Every time you turn your cuffs you save laundry money and get more wear out of the shirt. Get the habit—turn your cuffs—it pays.

The Reason for the Referendum Ballot

THE Government realizes that The Ontario Temperance Act is unsatisfactory, both to the great majority of the people and as well to the officials sworn to carry out its provisions.

In introducing the Referendum, Premier Hearst said: "During the past year the methods provided by The Ontario Temperance Act for dispensing such liquors as may lawfully be sold, have not proven as satisfactory as the Government would like. The Government is most anxious, as far as possible, to remedy any abuses and relieve any incon-veniences that exist."

To Relieve this Totally Unsatisfactory Condition the Referendum Ballot is Provided

The Referendum Ballot gives the people of Ontario an opportunity to repeal The Ontario Temperance Act. By voting "Yes" to all four questions, the people of Ontario will enable the Government to repeal the unsatisfactory Ontario Temperance Act and enact sane, moderate legislation which will permit the general sale of non-intoxicating beer containing 2.51% alcohol by weight, whilst restricting the sale of pure spirituous liquors and light wines to Govern-

The members of the Citizens' Liberty League and the great majority of the

people of Ontario do not and will not sanction a return of the bar with the unrestricted sale of spirituous liquors. The League wishes a sane, moderate compromise to meet the reaction against a too drastic prohibitory measure which has resulted in all sorts of evasions and brought the law into contempt, thus tending to destroy our national life as sober, law-abiding citizens.

For these reasons, all fair-minded, thinking citizens will vote "Yes" to the four questions on the Referendum Ballot.

CITIZENS' LIBERTY LEAGUE

Is Absolutely Opposed to a Return of the Old License System

The Citizens' Liberty League, consisting of prominent men and women in Ontario. place themselves on record as being unqualifiedly opposed to any measures that tend to bring back the bar and the unrestricted sale of spirituous liquors.

On the other hand, the Citizens Liberty League sincerely believed that the present situation de-mands a repeal of the unsatisfactory Ontario Tem-perance Act, and the inauguration of sane, moder-ate temperance legislation.

These leading men and women, with no selfish ends to serve, and having in mind only the leat interests of all the people in Ontario, are convinced that the true solution to the temperance problem is to allow the general sale of more appetizing, non-intoxicating beer and light wines, with the sale of spirituous liquors placed under proper Government regulations and restrictions.

Unite with the Citizens' Liberty League in its earnest, sincere endeavor to obtain temperance legislation which meets the needs of all but curtails the liberties of none.

Beer or the Boy?

ALF a million boys of Ontario have never tasted liquor. The province has been under prohibition for three years and they have had altitle or no opportunity to acquire the taste or to what the state of the safety of the future of these boys upon whom the future of the province depend on the future of the temptation. How much letter would it be for the depend on the future of the province of the future of the province of the future of

Oving to the wording of the Referendum ballot, many parents may not realize that the Beef proposed is intoxicating, more than twice as atrong as the beer allowed at the present time under the Ontario Temperance Act, and over five times as strong as the limit allowed for beer defined as non-intoxicating in Great Britain and the United States.

2.51% Alcohol by Weight Means 5.46% Proof Spirits

The Boer of the Ballot is 5.46% Boer. The Ballot says "2.91% alcohol by weight." But that means 5.46% proof spirits, and the Ontario Temperance Act allows only 2.50% proof spirits. The Boer of the Ballot is 118% stronger.

Three glasses of 5.46% beer equals in alcoholic content one ordinary glass of whiskey. Men and boys get drunk on beer. The young fellow when he takes his first drink takes beer. Beer creates the taste for alcohol. It develops drunk-the taste for alcohol.

Most beers contain other poisons beside alcohol—lupulin, for example, which de-stroys the kidneys and shakes the nervous system and is the secret of those crimes of brutal stupidity often laid at the doors of beer drunkards.

beer drunkards.

The Beer of the Ballot is too strong for your boy or anybody's boy.

What, would you not sacrifice for the welfare of your son—time—money—comfort—sleep! Is it too much to ask you to sacrifice 5.46% beer—in the home, in the bar—anywhere within this province of Catano.

No!—Four Times—"No!

Every mother and father in Ontario should vote to retain the Ontario Temperance Act in sacred trust for Ontario's growing boys. Be sure you mark an X after each question and place it under the heading "NO."

How We Go At It

Then we use the by-drometer which is the one reliable way of know-ing the condition of its charge.

Then, if no special cause of trouble appears we put it on the line to see if it will take a charge, But if there is plain in-dication of serious trouble we open the battery up-and find out exactly what's what.

Don't trust your havery, to amateurs outlits in guesswork, which laim they can tell inside condition by outside in spection.

Thousands of People Saw the "Spray" Process of Making KLIM-Separated Milk Powder Demonstrated at the Exhibition

THE specially constructed drying-box for demonstrating how liquid separated milk is converted into a dry powder — MLIM—without removing a particle of the food value or thoughing the natural flavor was the center of attraction for thousands of visitors to the Toronto Exhibition.

For the benefit of the wives and mothers who did not visit the Exhibition this illustration of the "spray" process will be of especial interest as it shows how an ever ready steply of pure separated milk can be kept in the kitchen for use at any time.

separated milk is forced by cylinders through thy pinholes at great pressure, coming out in the form of a fige mils to great pressure, coming out in the form of a fige milst just as from a huge atomizer. This fine mist enters a large towarm filtered air. The spray of liquid is whirled about this room just as you have seen the wind blow sone or fog. The moisture laden air passes out through screens which prevent any of the Klim escaping. Drifts of fine, clean milk-white prowder pils up in a few minutes and is then packed into the attractive blue-end-white striped this your grooter sells.

At no time does the liquid or the powder come into contact with human hands. Every machine, pipe, drying-box and utensit is as clean and sanitary as scientific management can devise. The cleanliness of the Klim plants would delight the heart of the most paintstaing home-maken.

This was George Brown's Ideal. He fought for it by his personal service in public life as well as through The Globe, which he founded in 1844. He lived to see Canada emerge from the struggle a fully confederated Dominion, stepping on to the highway of great national progress and prosperity. Robert Jäffray received his in-spiration from George Brown, whose guide, counsellor and friend the wax.—Blo management of The Globe by Robert Jäffray, was cha-certized by a singlifun to main-tain the Corpe Brown traditions and The Corpe Brown traditions at the Great Family Newspaper, George Brown made it.

YOU flood the factory with the most brilliant artificial light when you use HYDRO Gas Filled Lamps. The worker in the middle of the room, away from all windows, turns out as good work and as much of it as the worker right by a window.

window.

HYDRO Gas Filled Lamps are as great an improvement over vacuum lamps, for factory light, as the thingsten is over the carbon filament lamp. That's why factory hands work so efficiently by the light of HYDRO.

The guarantee and endorsement of the Hydre-Electric Power Commission of Ontario are behind every HYDRO Gas Filled Lamp. Every ship-ment is tested by experts in the laboratories of the Commission. The tests are for brilliancy, current consumption, life and mechanical per-fection.

Will you call at the Hydro Shop and let us give you a practical demonstration of the HYDRO Cas Filled Lamp?

- pure at the source

No matter what precautions are taken throughout the manufacture of Borden's St. Chades Brand Milk, we can not be sure of its final punty unless we know the milk is pure at the source. That is why we are so particular inselecting the dairy districts which furnish it. Rich, elean pasture lands, pure water supply, dairymen advanced in modern methods—these are the first requirements.

St. Charles Brand is the purest of sweet milk, with nothing, added. Part of the natural moisture is removed—that is all—then it is hermetically sealed in sterilized cans—ready for instant use wherever ordinary milk is used. Order a supply today—by name.

PLAIN STATEMENTS CITIZENS' LIBERTY LEAGUE

The Citizens' Liberty League is not dominated by selfish interests, nor has it any undisclosed purpose to serve.

The League is composed solely of men and women throughout Ontario who believe that the Ontario Temperance Act is unsatisfactory and that new legislation more in keeping with the wishes and needs of all classes should be enacted.

The Citizens' Liberty League is in accord with the Ontario Temperance Act in so far as it prohibits the unrestricted sale of spirituous liquors. The League is absolutely opposed to the return of the old license system...

What the League wants is:—That the Ontario Temperance Act be repealed and a new Act passed which would make provisions for the general sale of more palatable, non-intoxicating beer (containing 2,51% alcohof by weight), light wine; and the sale of pure spirituous liquors under proper Government control.

You are asked to vote for the repeal of the Ontario Temperance Act because the repeal of the Ontario Temperance Act does not mean a return to the general sale of spirituous liquors, as the Premier, in his speech of April 7th, said: "Now, practically no one suggests a return to old conditions." The distillers are the same of the conditions of the same of the conditions of the same of the conditions of the same of the conditions. The distillers aches are opposed to it. Many hotel-keepers say they are opposed to it. The brewers say they are opposed to it. Honorable gentlemen in the House and

the people out of the House who are opposed to the present Act, say they are equally opposed to the old order. The labor men who ask for stror ger beer say they don't want the sale of hard liquor."

The Premier and the Government, realizing this, would not be parties to a continuance of the general is do is spirits as the continuance of the general is do the parties to a work of the parties of the

Therefore the only thing to be done is to wipe out the rusatisfactory Ontario Temperance Act and thus enable the Government to bring in new legislation more in keeping with the wishes of the people.

Be sure to vote "Yes" to Question No. 1 for that will be your guarantee that proper consideration will be given to your vote in Questions 2, 3, and 4.

Vote "YES" on All Four Questions

Remember: Every voter must vote on every question or his ballot will be spoiled.

Booze Costs Years of Life

Insurance Records Prove Moderate Drinking Increases Death-rate 35%

> OR ages folly has accredited "a short life but a merry one" to those who made free with alcohol. Plain truth shows that the misery outweighs the "merriment." Life Insurance figures prove that the excess of deaths among moderate drinkers over abstainers runs from 11% to 74%.

And the highest percentage applies to men in the prime of life. It is the business of Life Insurance Companies to know the risks a man takes when he uses liquor. Actuaries of the big companies, with access to records of many years and covering hundreds of thousands of lives, have tabulated your chances of death by the great law of averrages. And these chances vary according to your use of alcohol.

Actuarial Comparison of Death Records

These Insurance men have no theories to prove and no doctrine to preach. Their figures are as cold as ice, and they make you pay for the risks you run. To them it is simply business a matter of dollars and cents. But to you it is a matter of life and death,

Are You Willing to Die Before Your Time for Sake of Booze?

BY actual experience of the United Kingdom Temperance and General Insurance Company covering a period of sixty years the number of deaths among moderate drinkers averaged 35% higher than among abstainers.

All insurance companies prefer risks upon lives of \$total \$abstairers. Come companies charge lower rates to abstainers. Other companies allow a larger share of the participating profits to policy-holders I who abstain from

alcohol."

Certain companies in Canada, several companies in the Knited States, England and elsewhere specializes on Temperance Insurance. Their records invariably show a lower percentage of cheaths arrong abstainers, the average for the Canadian Companies being only 31.5% of ordinary expectation.

Every insurance company wants to know your alcoholic habits before issuing your life insurances policy. If you are and have been a drinker to excess, no Company will insure you.

If during the working years of your life you have habi tually taken two glasses of whiskey per day of: the alcoholic equivalent in beer or other into accating beverages, your chances of

dying before your time are double those of total abstainers.

. If when you apply for a policy your present alcoholic habits are satisfactory to the com-pany, but your history records excessive drink-ing in the past, the company deducts four years from your life chances.

And it has been costing total abstainers yearly millions of dollars in premiums to help pay for excessive deaths among drinkers!

Ontario has suffered the loss of 25,000 men killed in battle. We have entered upon a period of Reconstruction. Human life is the nation's greatest asset. In the face of this enormous wastage Ontario cannot afford to enormous wastage Uniano Camet, and a lose a single life, or a single year or a day of life, because of beer or whiskey or any other form of alcoholic intoxicant. Ontario's men and women should be 100% efficient.

TO THE REFERENDUM COMMITTEE

the Ontario Brewers' Association can no longer disregard the attempts the Ontario Referendum Committee to mislead the people of this province in the forthcoming Referendum.

In its campaign literature the Referendum Committee has corrupted the statutory ballot as set out below, and its advertising positively asserts that the light beer to be voted on is intoxicating.

The Referendum Committee is either misinformed or is deliberately misguiding the people for a purpose. The purpose is to make the voters believe that they are voting for or against intoxicating boar.

Examine carefully the two ballots reproduced below.

GOVERNMENT STATUTORY BALLOT PAPER

Question 2.

ARE you in favor of the sale of sight beer containing not more than two and fifty-ene one hi briefship are cent, also hold weight measure through Government Agencies and amendments, to the Ontario Temparanco Act to permit such cale?

ARE you in favor of the cale of light beer containing not more than two and fifty-one one hundredths for cent, alcohol weight measure in Standard Hotels it deal muni-cipalities that by a majority vote favor sick sale and amendments to the Ontario Temperance Act to permit such sale?

4. ARE you in favor of the sale of all kinds of spirituous and malt liquor in Government agencies?

The Government Ballot clearly shows that the public is only to vote for or against the sale of beer contain-ing not more than 2.51 per cent. alcohol by weight.

Beer Containing 2.51 per cent. Alcohol by Weight is Non-intoxicating

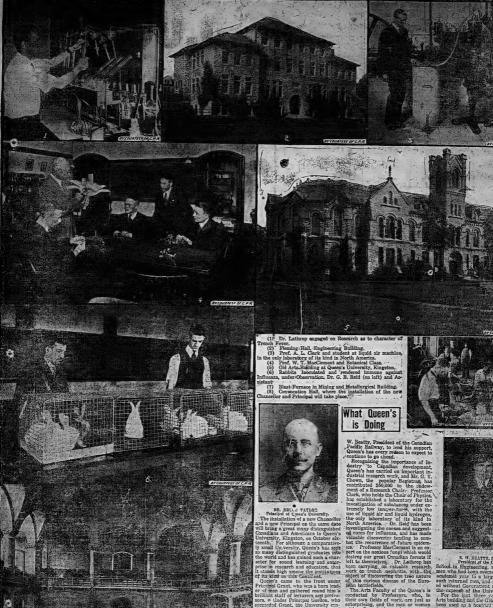

To establish that the 2.71 per cent, beer to be voted on is not intoxicating, the Ontario Browers' Association have deposited \$5,000 with the Canada Parnament 'Trust Company, and they hereby challenge the Ontario Referendum Committee to deposit an equal amount with the same Trust Company to prove that beer containing 2.51 per cent. alcohol by weight is intoxicating, or admit that their literature is deceiving, the olectorate.

Upon the investigation, the losers are to forfall their deposit to a cheety or charities to be named by the Investigating Board. The investigation is to take place before a nomines of the Unitary Releasement Committee, a nomines of the Unitary Releasement or committee, a nomines of the parameter of the Committee of the agreed on the take parameter as chosen — and if they fall is carried, on the samed by the Lessenson.

erendum ballot, showing the correct way to Vote in order to sustain the Ontario Temperance Act as it stands.

Everybody should study the four questions and realize exactly what they mean. Do not be misled by the institious demand for "light" beer.

The beer of the ballot is 118% stronger than the Ontario Temperance Act now allows, and over five times as strong as the limit allowed for beer defined as non-intoxicating in Great Britain and the United States.

Must Answer Each Question

1. Unless you vote on every question your ballot is spolled.

2. You must mark your answer to each question with an "X" only. Anything else would spoil your ballot.

Unless a majority vote "No" on question 1 the bars will be restored and the sale of all kinds of intoxicants permitted.

4. Unless a majority vote "No" on questions 2, 3 and 4 the Ontario Temperance Act will become almost worthless.

5. The only SAFE course is to mark your ballot as shown above.

"No!"-Four Times-"No!"

No repeal; No government beer shops; No beer saloons; No government whiskey shops.—Four X's, each under the word "No."

Royal Oil Wells will be my best ef-

I take full personal responsibility for Royal Oil Wells, Limited, and tender you my personal guarantee that we will produce oil and pay dividends. No efforts will be spared to make the company a whirlwind success.

DIVIDENDS. my friends and clients: Royal Oil Wells, Limitee, was or-ganized in the interest of the small in-vestors who wish to invest in amounts smaller than are being accepted by the larger companies, in whist the writer is interested.

A limited issue of \$100,000 of the Royal Oil Wells. Every share of this issue is first preferred stock. Preferred as to assets, preferred as to dividends, and in addition participates fully and equally in all profits and all properties as outlined in this announcement.

Royal Oil Wells offers the small investor a golden opportunity to share in the wonder profits of the greatest wealth producing industry known to modern civilization—with the absolute assurance of minimum risk, maximum profit and a square deal from start to finish.

Endorse the Citizens' Liberty League

The Citizens' Liberty League is proud to state that the following Organizations of Veterans have signified their approval of the League's objects and are supporting it in the endeavor to obtain sane, moderate temperance legislation.

Great War Veterans' Association Toronto Branches: Parkdale Central Riverdale West Toronto Earlscourt. The Grand Army of Canada. His Majesty's Army and Navy Veterans' Association. The Naval Veterans' Association. The Originals' Club. 75th Battalion Association. 83rd Battalion Association. 75th Battalion Officers Association.

These great Organizations of men who were the first to answer the call in the fight for liberty are endorsing the platform of the Citizens' Liberty League because they know, with the League, that the Ontario Temperance Act unduly restricts the liberties of the citizens of the Province.

These men ask, and what men in the Province have such a right to ask?—that you vote "YES" on questions 2 and 3 on the Referendum Ballot-and so assure to the citizens a beer containing 2.51 per cent. alcohol by weight, absolutely non-intoxicating-the Beer of the Ballot.

INDEPENDENCE IN DRESS.

It is fear, not modesty, that restrains man from indulging an indi-vidual taste in the matter of slothing. At least that is what one gathers from some interesting comments on "Clothes and the Man" in the Haberdasher:

"Did you ever poiss to comisder what claim the average man, who go to containly wears or crimion ites would have to distinction if if were not foot him to be the contained to the contained where the point of the contained to the contained or place? "What makes the brids-eye maple? That is a question which is often asked when a beautiful piece of furniture made of this wood is displayed. There have been a number of theories, but the real reason is simple, "say set New York Times." The favorite theory has been that temperatures, by pecking holes through the batter of some members and the productions.

"The favorite theory has been that sap-suckers, by pecking holes through the bark of young maples, made scars which produce the birds-up figure in the wood during successive years. Bird-pecked hickory is olden cited as an analogous case, yet whoever are which-eye figures in hickory, though the bark may have been perforated like a colander by the bills of energetic appsicaters? The effect in the case of hickory is the opposite of hirds-ye in maple; the wood is discolored and unsightly. Some attribute it to the action of frost, but on such connection between cause and effect has been shown to exist.

"Won its favor through its flavor"

An open letter by W. K. Kellogg.

I am firmly convinced that truth only convinces in the end-

No matter how a man or an institution may try to detract the public's mind from the main issue by a wilderness of words, his product stands or falls upon the truth or untruth of his statement.

The public always is finally convinced by truth and truth alone.

So, disregarding the claims and counter-claims of the imitators, simply make this one statement that

TOASTED CORN FLAKES

MOISTURE-PROOF PACKAGES is the most delicious, nutritious and crispest corn flake on the market, and the full, carefully-packed Waxtite package

preserves the goodness. Kellogg's Toasted Corn Flakes are wholly different from the limp, tough, leathery, carclessly-packed flakes so often substituted.

To make this so is my life's business. To find out that it is so, is your business. You are the Court of last appeal. Try—compact any other corn flakes on the market, then buy of your Grocer one package of Kellogg's Toasted Corn Flakes, in the Waxtite wrapper—you and your family will eat every bit of it.

If this is not the best Corn Flake you ever ate, you grocer will relund your money. It costs you nothing to fin out the truth and it is very much worth your while.

Robert Jaffray's devotion to Liberalism was conditional on that party's devotion to policies for the development of Canada and the betterment of Canadian life.

In this, and in his generous attention to the up-building of The Globe's news gathering organization, Robert Jaffray carried on the task the founder set for himself in 1844.

GOOD BETTER Paints Service

The reason we have Good Paints is because we use all kinds of Paints, and the using teaches us the good from the bad. We shun Bad Paints and buy large quantities of the Good.

BETTER The reason for selling at lower prices is because we buy our paints on the right markets—the lower markets—and we are satisfied with smaller profits—no profiteering.

Our Service is Best because we can tell you ac-curately anything you desire to know abour Paint. We know from experience, from constant using. We do not require to guess as would those who handle paints only in sealed tins. Our experience is yours for the asking.

CONSULT SCANTLEBURY on everything and anything per-taining to Paints and Painting and have the best at the lower price. Just follow these prices. They talk. Do you hear?

ONTAMUS PROUD OF MINISTERS OF EDUCATION.

Education is perhaps the most important department of Government.

The Clustrie Government in appointing Hon. Dr. Cody as Minister of Education accepted the man most intend for that position to be found in all Canada. Already important educational reforms have been described in all Canada. Already important educational reforms have been gentled to the cause of education of Ontario. A vew low W. H. Ireland will be a rove to keep Dr. Cody who they color where the beat interests of the boys and girls of Ontario demands that he be retained.

Prevent Fires

By removing all Ribbish and Litter. Have your furnace and statuse pipes in proper condition. Lightning Rods properly in-stalled are more than 99 per cent. efficient.

IN YOUR FACTORY AND SHOP

By removing oly waste and other fare menges. Prohibit snoking on the premises. Cleanliness, order and forethought are important factors in reducing fire waste. Provide better and more systemalic inspection and watchman service and also more efficient fire-fighting equipment.

IN YOUR OFFICE.

o not leave lighted eigars or eigarettes where they may start fire. Do not throw a lighted match into the waste-paper asket.

IN YOUR SCHOOL.

By teaching the children the danger of fire. Before leaving each night see that there can be so overheated stoves or furnace. Teach the children not to play with matches. IN YOUR CHURCH.

Have chimneys properly cleaned out before startinace. Never put on an extra/fire except when so hand to attend to it.

Alcohol is a Poison

No Man Ever Revived Who Swallowed Five Ounces at a Single Dose

OR centuries the human race has been under a delusion about alcohol. Modern Science has pronounced alcohol a deadly narcotic poison.

Five ounces of alcohol will kill a full-grown healthy man within ten hours. Taken in smaller but repeated doses alcohol lets him live longer but gets him in the end. All alcoholic beverages are poison, slow or swift-but sure.

Medical Science Has Established These Incontrovertible Facts

Alcohol is a racial poison.

Alcohol is a national curse Alcohol is a blight on the home.

Alcohol injures the individual and lowers his vitality.

Alcohol decreases his efficiency, makes him more susceptible to disease and shortens his life.

No man ever revived who swallowed five ounces of alcohol at a single do

The unconsciousness or come produced by alcohol if not broken within ten or twelve hours is followed by practically certain death.

Alcohol as medicine has been expelled from the American Pharmacopoeia upon the authority of the American Medical As-sociation comprising 81,000 physicians of the United States. Beer drinking produces degeneracy and affects children yet

unborn. Pneumonia is fatal to alcoholic patients.

Surgical operations are much more dangerous to habitual beer drinkers.

Alcohol lowers resistance to disease. Alcohol lowers the efficiency of the liver, kid-neys, heart, arteries and nervous system, and produces

Sweater Coats

Motorists, campers, athletes and all who enjoy the cool brac-ing evening air, invariably wear Penmans sweater coats. In them they find pleazing dashes of color, and up-to-the-minute styles that captivate.

Saves Fuel and Food

The continued high cost of food-stuffs and household supplies re-quire the strictest economy.

The most expensive foodstuffs are used in baking, so always be careful to use the right kind of Baking Powder, otherwise great waste may result.

EGG-0 **Baking Powder**

Egg-O also helps save fuel because it does not require so hot an oven an is required by other powders.

A brays follow the direction—one level teaspoonful to one level cup of well sitted flour. You use from a quarter to a half less powder when you meet Egg-O.

When buying Egg-O the larger this are the most ecope omical size for family size.

Comradeship

ADMIRAL Sir David Beatty, when speaking at Leicester a few days ago, said:

"We have been through four and a half years of a great struggle. We have all learned something—the true value of comradeship. Comradeship has enabled us to win the war," Realizing the significance and truth of this statement the Citizens' Liberty League appeals to the people of this Province to develop the spirit of comradeship, mutual forbearance, toleration and sympathy. Let us be fair-minded, less rigid, more reasonable, and more willing to give and

The workingmen of Ontario appeal for better beer—non-intoxicating beer—beer containing 2.51% alcohol by weight—THE BEER OF THE BALLOT.

Samuel Gompers, the world's greatest labor leader, stated the workingman's position clearly when he said:—

position clearly when he said:—
"The normal men, the men of Labor who work eight hours a day and no more, the workmen who carn decent pay, the workmen who have comparatively confortable homes, they do not want the artificial spirit. The man of normal spirit finds comfort in pleasant surroundings; he does not need, and, as a rule, will not partake of intoxicating drinks; he shous the effects of instructions of the said of t

even it you trea."

Scientific tests, practical experiments and thorough research prove that beer of even greater strength than 2.51% of alcohol by weight, is absolutely non-intoxicating. (The results of these tests have been lifed with the United States Circuit Court of Appeals).

As no harmful results can possibly come from drinking beer of this quality—is there any fair or logical reason why the working men should not have the more palatable beer for which they are asking—THE BEER OF THE BALLOT?

Support the working men and the Citi-zens' Liberty League in the endeavor to obtain a fair, just and reasonable compromise on the present too drastio prohibitory legislation.

Vote "YES" to all Four Questions

The Fight is Not Finished

One year ago today'
The troubled earth between the lines was carpeted with pain.
Drath rode whiteling on every wind.
The very minks were cleared with torment.
The very minks were cleared with torment and shrinking only the control of the control

And after the assault waves came the "Moppers-Up," Their it the jor of flerce combat, the quick rush for trensied formers. No, the "Moppers-Up" had the cold cam job of clearing trends surriedly swept by the first stormers, of gathering the asilen ego more of their asiletted shelters, of making sure no enemy was turn and fire against the backs of the swift victors.

Now, moving carefully, overlooking no need, come the "Moy"—the dollars of the Victory Loan, 1919. You understand their work? That work's importance? Stand to, "Moppers-Up"—Get Ready.

Boots of Black in fine kid or calfskin with plikid or califakin with pli-able soles and French heels will again form the keynole of co-ect general and senni-dress wear, for fall and winter.

Nigger Brown and Ma-hogany shades are also very popular, especially in the low heels, making splendid walking boots.
